General Education Assessment Plan

Information Management Competency
infused throughout the general education program

Year 3 (2004-5)

LEARNING OUTCOMES: The student will:
perform the basic operations of personal computer use;
understand and use basic research techniques; and
locate, evaluate and synthesize information from a variety of sources

ASSESSMENT MEASURES: Beginning in the 2004-5 academic year, a multiple-choice examination will be taken by students prior to qualification for graduation. The exam will be developed by faculty of the Computer Information Systems Area of the Business Department with cooperation from the English and Foreign Languages Department and the Library, and administered by the Student Success Center. The exam will be delivered and the results graded via Blackboard or a similar course management system. It will be composed of 30 to 50 multiple-choice questions, addressing the three learning outcomes equally.

STANDARDS: The criteria for determining student performance in meeting the Learning Outcomes will be the following: 70% or above exceeds the standard, 60% to 69% meets the standard, 50% to 59% approaches the standard, below 50% does not meet the standard.
