DISTANCE LEARNING COURSES

These courses are offered online. Students can access Distance Learning courses from home, on-campus labs, or from any computer with Internet access. The hours are therefore individually arranged with some common course deadlines.

To participate in a Distance Learning course, you must have graphical access to the World Wide Web. In the home, dial-up or broadband access is usually provided by an Internet Service Provider (ISP) for a monthly fee. Your Blackboard student account will be created using your SUNY Orange student email address as the default.

**Student Computer Requirements for Distance Learning Courses/Recommendations for Web Enhanced Courses**

Your Internet Service Provider (ISP) will specify the computer requirements for its service. Supported browser configurations are:

- Adobe Acrobat Reader (for viewing pdf files)
- *(other word processing software can be used, but documents must be saved in the .rtf format).

HYBRID COURSES FALL 2006

A hybrid course makes significant use of the Internet technology to facilitate access to class materials and support communication between faculty and students, among students, and between students and resources. These courses will only meet for one half of the required class time on campus. These courses will require participation in the online portion of the course in determining the final grade.
